DETAILED ACTION

Receipt of request for extension of time (granted) filed 5-13-02 is acknowledged.

Continued Examination Under 37 CFR 1.114

1. A request for continued examination under 37 CFR 1.114 was filed in this application after appeal to the Board of Patent Appeals and Interferences, but prior to a decision on the appeal. Since this application is eligible for continued examination under 37 CFR 1.114 and the fee set forth in 37 CFR 1.17(e) has been timely paid, the appeal has been withdrawn pursuant to 37 CFR 1.114 and prosecution in this application has been reopened pursuant to 37 CFR 1.114. Applicant's submission filed on 2-27-02 has been entered.

Claim Rejections - 35 USC § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claims 1-29 are rejected under 35 U.S.C. 102(b) as being anticipated by Welch, Jr. et al (4,536,518; hereafter '518).

4. '518 discloses sertraline compositions that are the same as the instant claims. For solubilizing agents, see column 7, line 22-column 8, line 22. Products of identical chemical composition can not have mutually exclusive properties. Therefore, if the prior art teaches the identical chemical structure, the properties applicant discloses and/or

claims are necessarily present. The instant claims 7, 13, 20, and 29 still permit calcium carbonate. Accordingly, calcium carbonate is not excluded from the composition and the proviso language of the claims as applied to calcium carbonate is not persuasive. Furthermore, '518 discloses other agents not excluded by the instant proviso language.

Claim Rejections - 35 USC § 103

1. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

2. Claims 1-29 are rejected under 35 U.S.C. 103(a) as being unpatentable over Welch, Jr. et al (4,536,518; hereafter '518).
3. '518 teaches sertraline compositions that are the same as the instant claims. For solubilizing agents, see column 7, line 22-column 8, line 22. Products of identical chemical composition can not have mutually exclusive properties. Therefore, if the prior art teaches the identical chemical structure, the properties applicant discloses and/or claims are necessarily present. The instant claims 7, 13, 20, and 29 still permit calcium carbonate. Accordingly, calcium carbonate is not excluded from the composition and the proviso language of the claims as applied to calcium carbonate is not persuasive. Furthermore, '518 discloses other agents not excluded by the instant proviso language.

Response to Arguments

5. Applicant's arguments with respect to claims 1-29 have been considered but are moot in view of the new ground(s) of rejection. As these arguments are applied to '518, the instant claims 7, 13, 20, and 29 still permit calcium carbonate. Accordingly, calcium carbonate is not excluded from the composition and the proviso language of the claims as applied to calcium carbonate is not persuasive.

Conclusion

4. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Todd D Ware whose telephone number is (703) 305-1700. The examiner can normally be reached on 8:30 AM - 5 PM.
